

EDUCATION WEBINAR

Thursday 19 May 2022
7.30pm - 8.30pm AEST |
Online

Managing mental health emergencies

In this webinar, this expert panel will answer any and all questions related to managing mental health emergencies.

Some of the content we aim to explore and discuss includes:

- The assessment and management of the sub-acute, chronic, and acute mental health patients, including strategies for junior or inexperienced clinicians.
- Analysis of the community care, emergency department care and ambulance service care for these patient groups.
- The impact of traditional medical ambulance care being applied to the mental health cohort.
- New and emerging systems of care to provide optimal patient outcomes, limit unnecessary ED presentations and improve ambulance availability.

Host: Ryan Parry, MICA Paramedic Intern, Ambulance Victoria

Speakers:

Angela Iliopoulos, Acting Manager Triage Operations, Ambulance Victoria

Alex Merrett, Mental Health Clinician, Peninsula Health

Shaun Baxter, Emergency and Retrieval Physician, The Alfred Hospital and Adult Retrieval Victoria
