Management Reduction Strategy Phase 2A

Dear Mr Hayes

I write in relation to the recent consultation regarding the Management Reduction Strategy Phase 2A, which impacts members of the Health Services Union (HSU).

Consultation in relation to the proposed restructure and changes to positions closed on 6 November 2024. A large volume of feedback was received from staff and the HSU and this was duly reviewed and considered by management.

I advise that decisions have been made concerning changes, and implementation is now taking place. Details of the confirmed changes are in the attached document. The process of placing staff into impacted positions within the new structures will now commence.

I take this opportunity to thank the HSU for participating in the consultation process and providing feedback.

Yours sincerely

Fiona Fahey
Director People and Culture
