

22 October 2024

Mr Gerard Hayes
Secretary
Health Services Union

By email: secretary@hsn.asn.au

Dear Gerard

Further to correspondence dated 12 December 2023, I am writing to update you on the progress of the Statewide ICT Service portfolio restructure for NSW Health Pathology.

A survey will be sent and made available (across a two-week period) to permanent and temporary employees of Clinical ICT Operations and Forensic & Analytical Science Service (FASS) ICT, including those on secondment into the Fusion Project to ascertain their individual preferences when employees return to Business as Usual (BAU) teams in the adopted Clinical ICT Operations Organisational Structure. Employees will be asked to priority select three (3) teams. The options include:

- Multidisciplinary Product team
- Microbiology Product team
- Anatomical Pathology/Genomics Product team
- Transfusion team
- Core LIMS team
- Training team
- Test and Release team
- Operational Engagement team
- DevOps/Data and Insights Team
- ICT Service Management team
- Client and Business Services team
- Project delivery team

This data will be collated to understand and prioritise staff preferences in accordance with the operational needs of NSW Health Pathology ICT Statewide Services.

We will continue to provide updates as the ICT restructure continues. If you have any questions, I can be contacted via email at Bailden.Pepperall@health.nsw.gov.au or by phone on 0475 300 211.

Yours sincerely,

A handwritten signature in black ink that reads "B. Pepperall".
