Notification of planned Implementation of DeliverEASE at Cessnock Hospital

Dear Mr Hayes,

I am writing to advise that Hunter New England Local Health District (HNELHD) has proposed the implementation of the DeliverEASE at Cessnock Hospital, with a commencement date of 25 November 2024.

This project is part of a broader strategy where DeliverEASE has been successfully integrated across 7 Health Districts, encompassing 43 hospitals, 1038 clinical areas. We anticipate smooth transition at Cessnock Hospital, aligning with the outcomes observed in previous implementations.

We recognise the importance of staff support during this change and HealthShare will work closely with the DeliverEASE project team to ensure that all necessary adjustments are managed efficiently minimising the impact for HealthShare staff.

We are open to consultation and welcome any feedback or concerns from HealthShare staff regarding this process.

At this stage we have limited information regarding the implementation, we will address any queries as best as we can, ensuring HSU organisers for the Hunter area are informed of any development.

Please contact me or Aleksandra Kusmierz, HR Business Partner at aleksandra.kusmierz@health.nsw.gov.au or 0499 829 587 if there are any questions or concerns.

Sincerely,

Rick Forrest
Acting General Manager, Patient Services
Hunter & Central Coast
