Regions – final structure

The proposed structure will be implemented progressively to ensure consultation is undertaken with teams and stakeholders and there will be a planned transition for each project.

Regional Executive Directors will work with teams to plan the transition to the final structure to occur over the next 8 weeks.

Regions

- 1. The following section reflects resource allocation information for current HI projects and is:
 - Arranged by regions (<u>Western</u>, <u>Northern</u>, <u>Rural & Regional</u>).
 - Further categorised by Projects (primarily under Local Health Districts and excluding the Asset Programs Delivery portfolio).
- 2. For project allocation, a distinct legend is defined at the bottom of pages to indicate single or multiple projects and line managers, as follows:

Solid box indicates single project and main manager reporting line

-- Dotted line indicates multiple projects, and reporting line information in -- bold / underlined denotes **main manager reporting line**.

Solid line indicates shared resource between Regions and Functional Business Units

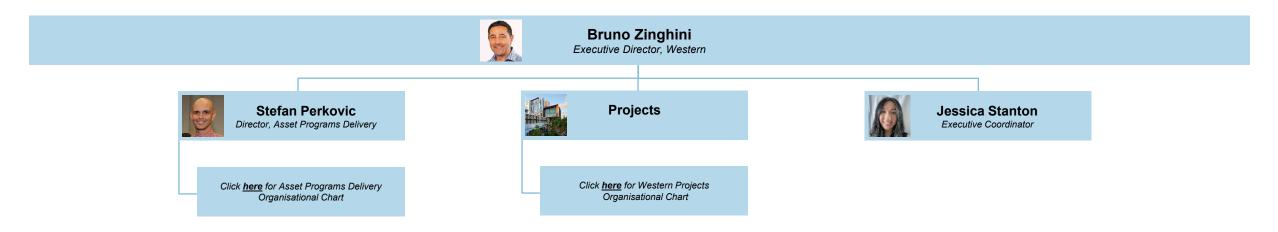

- Many people appear more than once across different projects.
- This results in multiple reporting lines according to the projects;

however, each person will have the one direct line manager.
